ePatient Record Management Module

病人電子醫療記錄

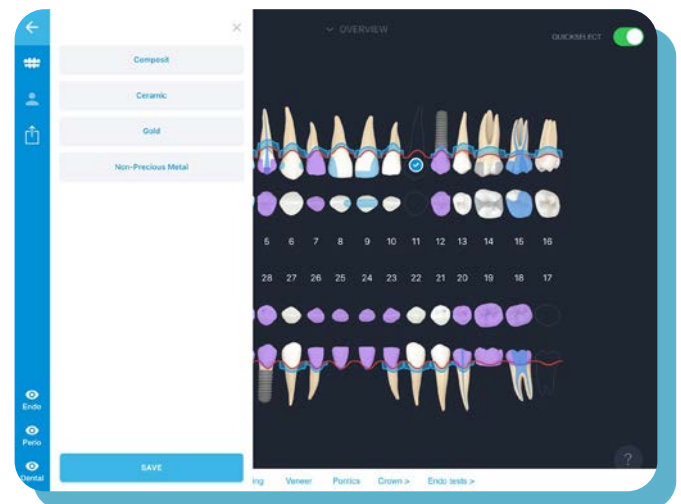

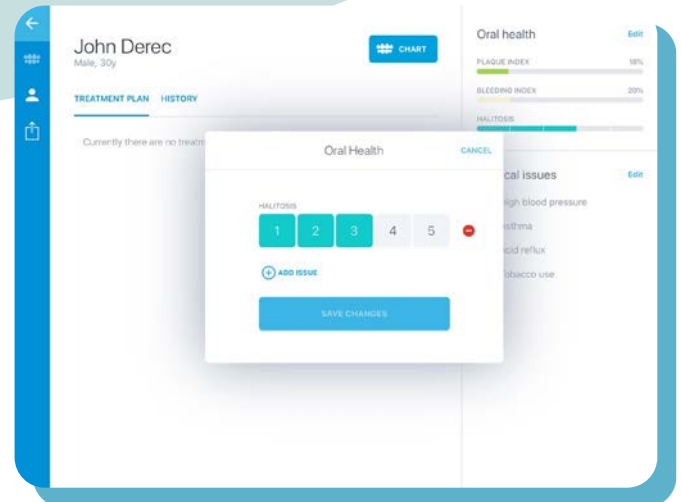

derec® Dental Charting

Hong Kong's official partner with the derec® Dental Charting app allowing you to record, manage and show your clinical findings in the web app.

Dental Charting in Web

Record, manage and show your clinical findings in web app. derec® offers you and your patient a clear and comprehensive overview of the oral status. Forget about cranky dental charts!

牙科圖表軟件

香港官方合作夥伴derec®, 專業牙齒繪圖應用程序, 可讓你管理, 記錄, 和顯示你的臨床發現。

高移動性牙科圖表

在應用程序中記錄, 管理和顯示您的臨床牙科診斷。derec®為您和您的患者提供清晰, 全面的口腔狀況概覽。不用再為一大堆牙科圖表而繁瑣!

ePatient Record Management Module

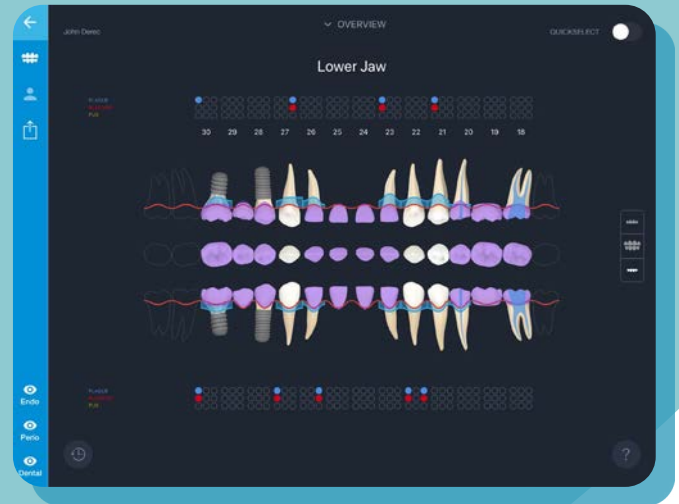

病人電子醫療記錄

Periodontal Status

derec® is the best tool available for recording a complex periodontal status. Probing depths, gingival bleeding, plaque accumulation, tartar, furcation involvement and pus can be recorded at 6 spots on each tooth.

Fillings, Crowns, Bridges, Implants and more...

The app's intuitive "tooth pad" allows you to quickly and effortlessly enter the restorations such as fillings, veneers, partial crowns and crowns, onlays, inlays.

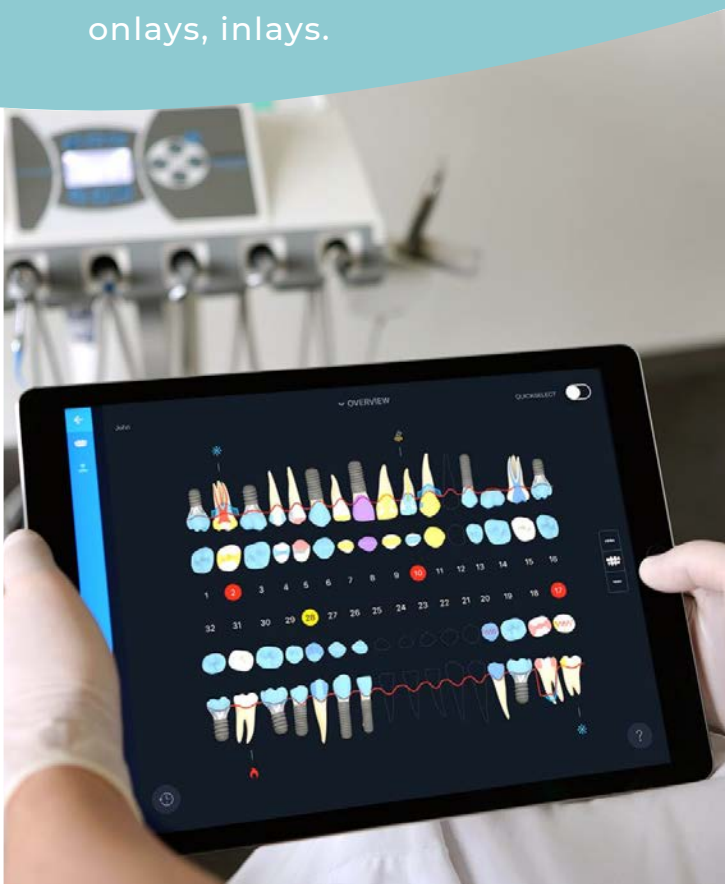

牙周狀況

是記錄複雜牙周狀態的最佳工具。
可以在每顆牙齒上的6個點處記錄深度，
牙齦出血，牙菌斑積聚，牙垢，牙根分叉
破壞和膿液等問題。

填充物, 牙冠, 牙橋, 植入物等...

該應用程式直觀的“牙墊”可讓您
快速輕鬆地輸入修復體，例如填充物，
飾面，局部假牙冠，單顆假牙套，
嵌體與冠蓋體。

Single Tooth View Clear & Detailed

Comprehensive single tooth viewing that illustrates the patient's previous tooth findings from endodontic tests to pathology or restoration. derec® offers an intuitive entering system that allows quick and effortless recordings of tooth restorations like fillings, veneers, partial crowns or crowns and inlays.

Patient's Overview

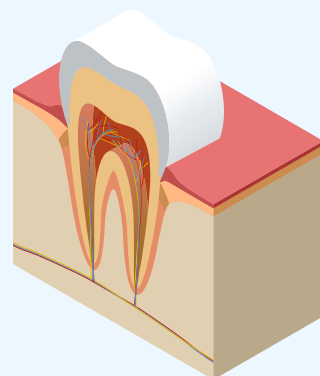

Get all information in the patient's overview. See medical issues, latest plaque and bleeding index as well as the patient's treatment plan.

單齒視圖 - 清晰細緻

全面的單顆牙齒觀察，可顯示病人先前從牙髓測試到病理或修復的牙齒發現。derec®能提供直觀輸入系統，可快速輕鬆記錄牙齒修復體，例如填充物，飾面，部分冠或冠和嵌體。

患者概況

在患者概述中查看牙齒概況，牙垢，出血指數以及患者的治療計劃。

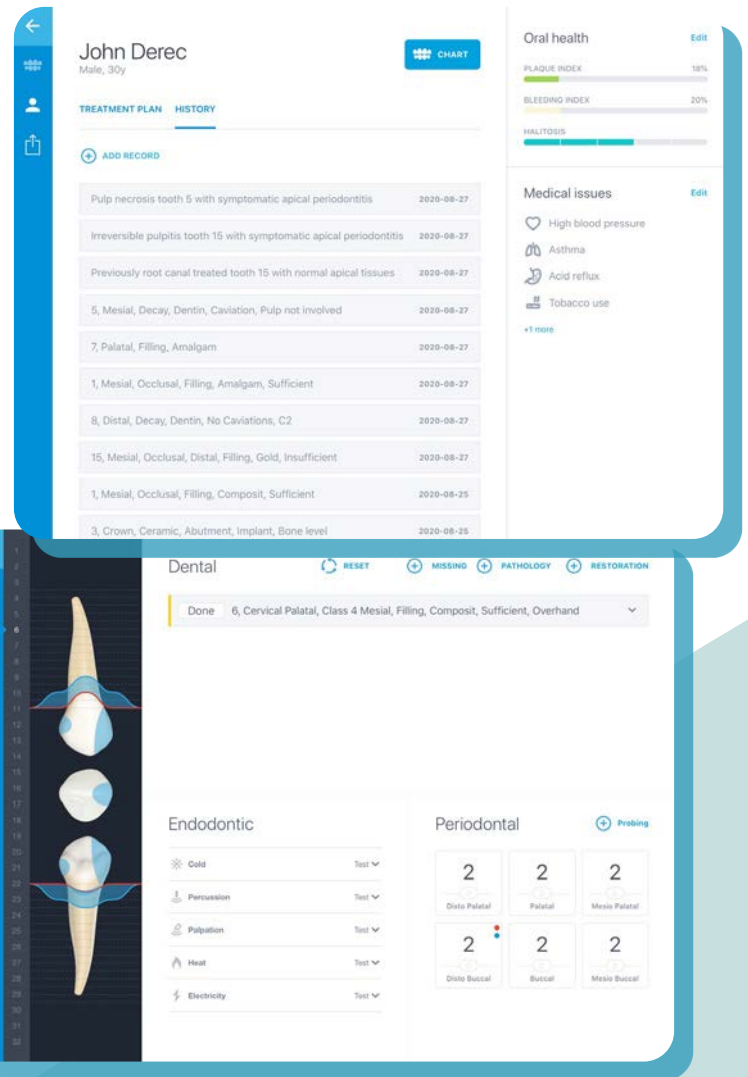

Rollback

Roll back in time! With the new rollback function, you can step through the charts in the past. See how the dental and periodontal status of your patients changed over time! This is a great tool for follow up your patients!

Endo Ai

Equipped with a new smart Ai tool for proposing an endodontic diagnosis based on your clinical tests and findings.

回看紀錄

使用嶄新的回看功能，您可以瀏覽病歷圖表。了解您的患者的牙齒和牙周狀況如何隨時間變化！這是跟進患者病情的一流工具！

牙髓學人工智能

配備尖端的牙髓學人工智能，一個基於臨床測試並馬上準確提出牙髓病診斷方案的人工智能工具。您只需對牙齒進行所有必要的檢查（例如，冷測試，敲擊測試和放射性造影，derec®就會向您提出精準診斷建議。2009年美國牙髓聯合會診斷術語）

ePatient Record Management Module

病人電子醫療記錄

Integrate existing X-ray Records (Optional)

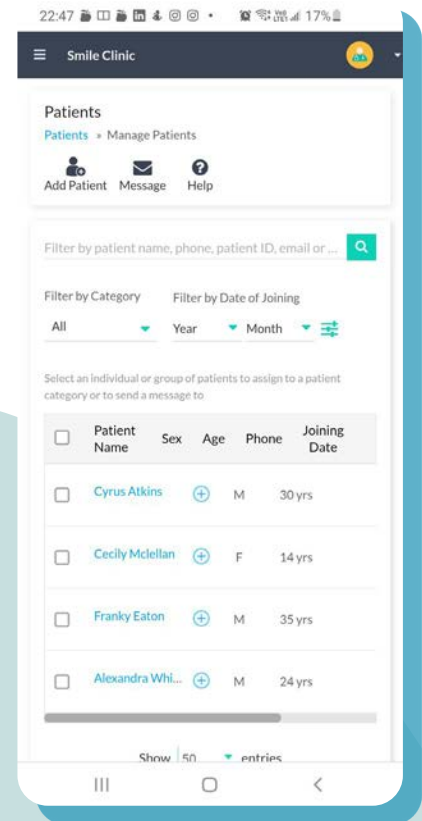

Integrate with existing X-ray record & pre-pro surgery photo system for easy retrieval of patient records (Optional – this requires a local NAS and backup mechanism)

eConversion of paper base medical records with encryption on ClinicPro FOR DENTIST system (Optional)

Collating all your medical record systems into one by converting paper medical records into digital copies with our safe and secured cloud storage with guaranteed data security, back up and encryption. eConversion services filed as JPEG file with searchable index to ClinicPro FOR DENTIST system.

Data migration services of ePatient records from existing application (Optional)

Manage patient medical records with efficient eFiling and transferring of existing digital records to ClinicPro FOR DENTIST's online system.

結合現有X-Ray記錄(自選)

與現有的X射線記錄和術前術後照相繫統集成,可輕鬆檢索患者記錄(可選-這需要本地NAS和備份機制)

紙質病歷電子轉換至ClinicPro FOR DENTIST 服務 (自選)

將現有紙質病歷轉至為數碼副本及轉移到 ClinicPro FOR DENTIST 系統並具有搜索指數。eConversion服務以JPEG文件歸檔更方便搜尋病人。通過高效數碼病歷管理,上載於加密而安全可靠的雲端。

現有ePatient記錄數據遷移至ClinicPro FOR DENTIST 服務(自選)

通過高效的電子病歷管理,並將現有電子病歷傳輸及遷移到ClinicPro FOR DENTIST的在線系統。

Appointment Making and Document Management Module
